

Welcome...

to the YWCA Toronto
movement.

Philanthropy is an expression of love for humanity and an act of hope that the world can be changed for the better.

At YWCA Toronto, charitable donations fund core programs and infrastructure, advocacy initiatives, service innovation and expansion, as well as special projects like the YWCA Toronto December 6 Fund.

The generosity and commitment of YWCA Toronto's donors is of critical importance, and makes a significant impact on the lives and futures of the women and girls we serve, and their families. YWCA Toronto strives to provide services beyond basic shelter, housing and employment supports. Donor support makes this possible, so that we can address the mental health, addiction issues and trauma that have impacted the lives of many of the women who seek our support.

GOVERNANCE

YWCA Toronto is governed by an 18-member Board of Directors which reflects the diversity of Toronto. Our annual budget is \$28 million with revenue coming from private philanthropy, all three levels of government, earned revenue and the United Way Toronto. You can find our Annual Report and our Audited Financial Statements online at ywcatoronto.org.
