

# YWCA Toronto

## PROJECT CONSULTING

For individuals, teams, businesses and organizations in the public, corporate and non-profit sectors.

We contract our services as project managers or consultants in three areas of expertise:

### Women Focused Programs

Distinctive and effective service models to meet the personal and professional needs of women-centered programs and services.

### Employment Services

Whether career development, job search strategies, self-marketing for employment, job maintenance or case management, we can design, implement and monitor employment and career programs and services.

### Life Skills: Training, Coaching and Facilitating Services

YWCA Toronto is a national training centre for Life Skills Coaches and the publisher of Life Skills resources. We can assist with Life Skills curriculum design and delivery that is targeted to specific client groups.

**We welcome partnership opportunities and invite you to discover what YWCA Toronto can do for you and your organization.**

**Course Fee:** Fees based on needs

### Our clients say...

*"We've partnered with YWCA Toronto to distribute Life Skills publications in the prairies."*

*"I visited YWCA women employment programs and got them to help us revisit the Life Skills program in our shelters."*

*"I think YWCA Toronto "gets" women and women's needs. Period!"*
